YOHEL DOMINGO UREÑA MORA

FULLSTACK DEVELOPER & UX DESIGNER

React • Drupal • Angular • NextJS • WordPress
HTML5 • CSS3 • JS • TS • SCSS • SEO • PHP • UI/UX

Professional Description

Passionate about all UX and UI trends, usability, and accessibility, I am a Full Stack Developer, primarily focused on Frontend development. I have been involved in various projects using technologies such as React, JavaScript, Typescript, PHP, and jQuery. Giving me hand-code experience in hybrid mobile and web development.

I enjoy creating great looking digital products, focusing on performance, and good user experience as well.

Additionally, I excel in crafting vector elements, wireframes and prototyping, ensuring a seamless integration of design and development for optimal user engagement applying usability and accessibility principles.

Knowledge

Software Development

Drupal · JavaScript · TypeScript · SCSS · React · React Native · NextJS · Angular · Gatsby · Astro · Remix

Bootstrap · Tailwind · Material UI · Storybook · Emulsify · Twig · Git · GitHub · GraphQL · NPM · Composer

Webpack · Pantheon · Netlify · Lando · Docker · PHP · Laravel · WordPress

Design & Multimedia

Figma · Illustrator · Photoshop · After Effects · Premiere Pro

Work Experience

2021 - Present **Full Stack Developer at ParallelDevs** Full-time

I worked on several development projects, showcasing my proficiency in Drupal, WordPress, and other headless sites with frameworks like React, Gatsby, Astro, and others using CMS like Drupal or Contentfull consulted through GraphQL. With excellent practices in SEO, Usability and Accessibility.

My expertise extends to generate reusable frontend components for custom theming and consume backend services. Additionally, I worked on other site-building functionalities, including building custom modules, content types, views, blocks, SEO optimization, forms, and more.

Some of my achievements:

- Developments in limited times.
- Active participation in the Drupal community, and module maintenance.
- Joint development with people from USA and Canada.
- High performance in development as well as interface.
- Implementation of accessibility practices based on WEC WCAG 2.2
- Gave talks at the Drupal Camp Costa Rica 2022 and 2023.

2019 - 2021 **Assistant at University of Costa Rica (UCR)** Part-time

I updated and managed the library's website and database, also managed the library's social networks, created posters and other graphic identity elements to promote academic activities. I organized campaigns in the UCR providing help and support in different socio-cultural activities that involved people from the community, and people in situations of poverty or social risk. I managed the office and organized several documents to keep control and inventories.

2019 **InterGameDev & Desing at Ingeniust** Part-time

I developed content and graphic material for social networks. Design and prototyping of User Interface (UI) and User Experience (UX) for projects developed in Unity. I setup graphic material for printing and identifiers for third parties generating brand identity and visual identifier for several companies.

Hard Skills

4+ years development experience with hand-coding advanced HTML5, CSS3, SCSS/SASS, JavaScript, and React Frameworks.

3+ years of professional experience developing projects using Drupal, Drupal Decoupled, React, React Frameworks and WordPress.

3+ years experience working on Agile Methodologies and Scrum teams.

Advanced knowledge in web development and mobile applications with Drupal and Decoupled Drupal architecture focusing on SEO and performance.

Great QA approval rate and accurate estimates for new projects.

Proficient understanding of async request handling and RESTful APIs.

Experience using 3rd Party API integration and public libraries.

Proficient understanding of CSS preprocessors such as SASS or LESS

Advanced knowledge in SQL Databases, Web Design and Interactive Applications.

Advanced understanding of code versioning tools, such as Git.

Knowledge operating hosting systems and websites migrations with Pantheon, Netlify, Hostinger, and others.

Proficient in the use of Jira, Tempo, and others management software.

Demonstrated understanding of Responsive Web Design principles.

Proficient use of package manager with, NPM, Composer and Webpack.

Advanced accessibility knowledge (WCAG 2.2 Level A, AA, and AAA).

Professional skills in design layout and prototyping with Figma.

Skills in creating branding, banners, posters, and infographics in Adobe Illustrator and Photoshop.

Soft Skills

Leadership characteristics.

Excellent actor between designers and developers to bridge the professional gap.

Proactively cultivates expertise through self-directed learning and skill acquisition.
