SUMMARY

Full-Stack Developer and UX Designer with 3+ years of experience crafting high-performance digital solutions and specializing in frontend development, hybrid mobile/web applications, and scalable systems using technologies like React, Drupal, GraphQL, and Next.js, among others. Passionate about UX/UI trends, usability, accessibility (WCAG 2.2), and delivering optimal user experiences. Proven expertise in leading teams, mentoring developers, and collaborating across U.S. and Canadian teams.

LANGUAGES

B2 English | Native Spanish

CORE COMPETENCIES

Development: React, Drupal, Next.js, Angular, JavaScript, TypeScript, SCSS, PHP, MySQL, GraphQL, Docker, Lando, Gatsby, WordPress, Tailwind, Material UI, Emulsify

Design: Figma, Illustrator, Photoshop, After Effects, Premiere Pro.

DevOps & Tools: Git, Webpack, Composer, Jira, Netlify, Vercel, Pantheon, Platform.sh, Hostinger.

Best Practices: Agile/Scrum, Atomic Design, Accessibility (WCAG 2.2), SEO Optimization.

EXPERIENCE

2023–Present

Full Stack Developer | ParallelDevs

Team Lead with expertise in Drupal and decoupled sites, utilizing React-based frameworks like Next.js, Angular, Gatsby, Astro, and Remix, consuming APIs using GraphQL. Skilled in creating custom hooks in JavaScript, React, and PHP, data modeling with MySQL, and committed to best practices in SEO, usability, and accessibility (WCAG 2.2). Hand-on experience in agile website development with large teams delivered in less than 6 months. Proven ability to build complex websites and mobile apps through custom frontend and backend integration. I authored documentation, code standards, and guidelines for developers. Key responsibilities include code reviews and mentoring junior developers. Worked as outsourcing with teams in the U.S. and Canada and delivered tech talks at Drupal Camp CR 2022 & 2023. Also, as a designer, I create functional website prototypes in Figma, ensuring optimal user experience.

2021–2022

Frontend Developer | ParallelDevs

Designed and built dynamic websites on Drupal, Contentful, and WordPress.

Develop customization themes on Drupal, using blocks, views, taxonomies, custom modules, Twig templates, and CSS preprocessors such as SASS or LESS.

Applied atomic design methodology to create reusable components and design complex interface systems for scalable and efficient web development.

Awarded with a great QA approval rate and accurate estimates for new projects.

Demonstrated fast adaptation to different work environments.

2019–2021

Assistant | University of Costa Rica (UCR)

Managed website updates and social media for the library, enhancing its digital reach.

Organized campaigns and designed promotional materials, increasing engagement.

Supported socio-cultural events, benefiting underprivileged community members.

2019

InterGameDev & Design | Ingeniust

Designed UI/UX prototypes for Unity-based projects and created branding for diverse clients.

Delivered graphic assets for print and social media, improving brand consistency.

EDUCATION

2021–Present

Master's Degree in UX/UI in Computer Science and Multimedia Technology | University of Costa Rica

2018–2021

Bachelor's Degree in Computer Science and Multimedia Technology | University of Costa Rica
